The application has been amended as follows:

In claim 22 of the examiner's amendment mailed on October 18, 2005 the following changes have been made to correct obvious spelling and grammatical errors:

In line 2 of claim 22 "c" has been deleted.

In line 5 of claim 22 "terminating" has been changed to – terminating --.

In line 10 of claim 22 the apostrophe after "to" has been deleted.

**On page 3 of the examiner's amendment:**

Line 15 after "O-ring 2." "the" has been changed to – The --.

Line 16 "an" has been changed to –a –

Line 19 the comma ",", has been deleted and –a – has been inserted.

**On page 4 of the examiner's amendment:**

Line 1 after "would" – be – has been inserted.

**MPEP 37 CFR 1.125 states:**

**§ 1.125 Substitute specification.**

(a) If the number or nature of the amendments or the legibility of the application papers renders it difficult to consider the application, or to arrange

**the papers for printing or copying, the Office may require the entire specification, including the claims, or any part thereof, be rewritten.**

**(b) Subject to § 1.312, a substitute specification, excluding the claims, may be filed at any point up to payment of the issue fee if it is accompanied by a statement that the substitute specification includes no new matter.**

**(c) A substitute specification submitted under this section must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters.**

**The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown pursuant to this paragraph.**

The substitute specification filed January 31, 2003 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: it contains new matter, was not accompanied by a statement that the substitute specification includes no new matter as required under paragraph (b) of 37 CFR 1.125 and the substitute specification did not satisfy the requirements of paragraph (c) of 37 CFR 1.125 as noted above.
